"My name is MacKayla, Mac for short. I'm a sidhe-s... 5++ star paranormal romance/urban fantasy series I HAVE THE FEVER!!!!!!!!!! Do you want to meet THE. Ultimate. Alpha Male. Character?? Grab yourselves a copy of Darkfever and meet the enigmatic, mysterious, fiercely protective, powerful and dominating Jericho Z Barrons. All I can say is if you want a completed book series with an incredible plot, a unique world, and vivid, multi-layered characters with deep pasts, where EVERYTHING happens for a reason (having finished them, I realized there was absolutely NO fluff in these series at ALL), and a full-filling, heart-warming HEA, then this is the series for you. Moning does a masterful job of building an world full of multiple complex story lines and then weaves them all together seamlessly in a way that will keep you guessing right up till the very end. (ALL my predictions were wrong! and that doesn't happen very often)... This book will have you going crazy asking "What IS Barrons?????" "When you know who I am. Let me be your man." Seriously, this is one of the BEST series I have EVER read. I can't recommend them highly enough! The first book is a little slower though because this is really a story that BUILDS. If you find it slow, don't worry and don't stop!!! It's worth it to keep going @ The first 5 books may be read together as a COMPLETED series and should be read in order. It is one continuous story. Each book starts right where the previous one left off. And the SERIES ending is a HEA. The individual books themselves have cliffhangers since the story spans 5 books. And they are definitely 'adult', not YA. "One day you will kiss a man you can't breathe without, and find that breath is of little consequence." ENJOY!! *** SERIES READING ORDER *** Purchase Purchase Purchase Purchase Purchase At this point, you can choose to either end the series, or continue reading. The first 5 books work as a complete series, but if you just can't get enough of this series, then you can read these next (although the main focus of them is on different characters)... Purchase Purchase Purchase Purchase Purchase I'm trying the first book of the series by Karen Marie Moning because people on here seem to recommend it all the time and love it so much. Especially Jericho??? Like... why. I'm not done with Darkfever yet (69% in heh heh), still working on it, but I'm almost about to give up on it. So I guess I'm just looking for some encouragement to keep going and some insight into the characters by people who love the series.So far the heroine is really ditzzy and just keeps talking about growing up in the south and bringing back all of her mom's pretty archaic sayings like "let a man work for it" etc. etc. Every time she even thinks about cursing she's like "oh pardon my language". I just find it so annoying. Like, yes, if people are trying to kill you and you want to say "fuck" you can say it in your head or out loud without apologizing to your parents who ARE NOT PRESENT. I just wish she were more of a badass, is that coming? I also don't enjoy the parts of the writing where she references all the things she learns in the future, it really takes me out of it. For example when she says "I would later find out how untrue that is." Do the rest of the books get better about this?And now for Jericho. He treats her like shit all the time and even harmed her when they first met. Constantly takes advantage of her, overpowers her, belittles her, makes her feel unsafe, and doesn't teach her how to defend herself. He just keeps telling her she's stuck and will die because it's so dangerous. I don't see a single redeemable quality about him, or does the fact that he's supposed to be hot and rich make up for his personality?As a positive, since I've been shitting on the book so far, I do enjoy the world building and kinda like V'lane (as much as you can like someone who does what he does to her every time he meets her). I do want to know what happened to her sister and why everyone is so invested in finding the book. Are you a very recent addict to Karen Marie Moning's books and looking for what to read next?
