**Nonverbal Communication-What Is It?**

Nonverbal communication means the different ways we can communicate with our bodies. Did you know that our bodies can send a message without saying any words?

TYPE OF NONVERBAL COMMUNICATION	MEANING
Personal Space	The movements we make with our face and bodies. This can tell others about our mood or feelings without saying any words.
Posture	The way our voice sounds when we speak. It can send messages different from our words.
Body Language	Our position when standing or sitting. This can show people that we are either listening or not listening to them. We usually focus on our shoulders, heads, and standing up straight.
Eye Contact	Looking someone in the eye or face while talking. This can show that we are listening and help us to connect with others.
Tone of Voice	The area of space around everyone needed to feel comfortable. It can feel uncomfortable if someone does not give us this.
