Mark Manson

Mark Manson is the Author of Dress #1 of the New York Times, of all this is f*cked: a book about hope and the subtle art of not giving a F*ck: a counterintuitive approach to living a good life, the Mega-Bestseller that reached #1 in fourteen different countries. Mark's books have been translated into more than 50 languages and have sold more than 12 million copies worldwide. Mark runs one of the world's largest personal growth websites, Markmanson.net, a blog with more than two million monthly readers and half a million subscribers. His writing is often described as A-Grade-A-Help for people who hate self-help. He's hit a chord with people all over the world. His writing has appeared in the New York Times, Wall Street Journal, Time Magazine, Forbes, Vice, CNN and Vox, among many others. He currently lives in New York City. Qualifications: unconventional, pragmatic advice. They lack the face of so much conventional self-help wisdom that it is hard to label the book as anti-self-help. However, that label undermines what pragmatic the book really is. In the overcrowded and over-cluttered self-help genre, this is a book that is worth what you can gather. In this defining self-help guide of the generation, a superstar blogger goes through the shit to show us how to stop trying to be "positive" all the time so that we can be truly better, happier people. For decades, we have been told that positive thinking is the key to a happy and rich life. "F**k positivity", says Mark Manson. "Let's be honest, shit is f**ked and we have to live with that." In his wildly popular internet blog, Manson doesn't have a sugar or misunderstanding. He tells her that it is, a dose of reality, refreshing and honest that he misses so much today. The subtle art of not thinking is the key to the mindset of MINDSET, which has infected modern society and ruined a generation, rewarding them with gold medals alone. Manson argues, backed by both academic research and timely pincers, that improving our lives does not depend on our ability to convert lemonade lemons, but to learn to better digest lemons. Human beings are imperfect and limited—not all can be extraordinary, there are winners and losers in society, and something of that is not fair or your fault. Manson advises us to know our limitations and accept them. Once we accept our fears, faults and uncertainties, once we stop fleeing and evade and begin to confront painful truths, we can begin to find the value, perseverance, honesty, responsibility, curiosity and forgiveness we are looking for. There are so many things that matter to us, so we have to find out what are really important. Manson makes it clear: While money is good, worrying about what you do with your life is better. Because health is about experiencing. A very necessary sense of relaxation, full of entertainment, hobbies and interests makes human the subtle art of No F**k a refreshingly clear a generation to help people carry happy and fulfilling lives. Founded in 2007, #1 New York Times Best-Seller ever, 10 million copies sold this self-help book that defines a generation, a blog that summarizes how to stop trying to be positive all the time so that we can become better and more happy. During decades, we have been told that positivity thinking is the key to a happy and rich life. A-F**k positivity, says Mark Manson. "Let's be honest, the shit is fucked up and we have to live with it." On the popular Internet blog of him, Manson does not put the coat or is wrong. He says it as if it were a dose of raw, refreshing and honest truth that nowadays. The subtle art of not giving an F**k is the antidote of him to the pampering, to let all feel good that has infected modern society and pampered a generation, rewarding them with gold medals. Manson argues, backed by both academic research and timely poop jokes, that improving our lives does not depend on our ability to turn lemons into lemonade, but on learning to digest lemons better. Human beings are imperfect and limited. Not everyone can be extraordinary, there are winners and losers in society, and some of that is not fair or your fault. Manson advises us to know our limitations and accept them. Once we accept our fears, failures and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity and forgiveness we seek. There are so many things that matter to us, so we need to figure out which ones are really important, says Manson. While money is good, worrying about what you do with your life is better, because real wealth is about experience. A much-needed moment of real conversation, full of entertaining stories and profane and ruthless humor, The Subtle Art of No F**k is a refreshing slap for a generation to help them lead contented and grounded lives. lives.
