

T mobile wifi hotspot charges

[Continue](#)

A hotspot is basically a Wi-Fi router like the one you have at home. But instead of using a wired broadband connection for internet service, a hotspot uses your phone's network. Once you've set up your hotspot, other devices can tether to it like they would a Wi-Fi network. A T-Mobile hotspot may not be as fast as your home internet connection, but its speeds are respectable. If you've got 4G LTE service, then your speeds will be around 25 Mbps (you can learn more about how much internet speed you actually need in our handy guide).¹ Setting up a mobile hotspot requires two main things: a phone and a hotspot capable phone plan. So, does T-Mobile offer free hotspot data to its customers? The answer is: sometimes. Many of T-Mobile's plans are hotspot capable. But some of these hotspot capable plans have pretty restrictive limits, such as capping data at 3G speeds (which is about as fast as your old dial-up internet). Here's a look at how much hotspot data you'll get with each of T-Mobile's unlimited data plans: Essentials: unlimited hotspot data at 3G speeds Magenta: 5 GB of full-speed LTE hotspot data and then unlimited hotspot data at 3G speeds Magenta MAX: 40 GB of full-speed LTE hotspot data and then unlimited hotspot data at 3G speeds T-Mobile's limited-data plans will allow you to use your purchased full-speed data as hotspot data, but after that you'll be limited to 3G speeds. If you're not satisfied with T-Mobile's options for hotspot data, check out these other plans. Most cell phones on the market today are equipped with hotspot technology. But, if your phone is unable to connect to a hotspot it could be a hardware issue, chances are you might need to upgrade. Here's a list of the most popular phones from leading brands that are offered through T-Mobile. Stay connected with unlimited data for as little as \$20/mo. Keep the whole family entertained with multiple-device connectivity. Your Wi-Fi connection also works near the car so you can stay on top of things. You'll have access to T-Mobile's amazing customer care. Plus taxes and fees. With AutoPay. Compatible vehicle & devices required. Max eight simultaneous connections. During congestion, heavy data users (>50GB/mo. for most plans) and customers choosing lower-prioritized plans may notice lower speeds than other customers. Video typically streams on smartphone/tablet in SD quality. Always pay careful attention to the road and do not drive while distracted. See full terms Capable device required; coverage not available in some areas. Some uses may require certain plan or feature; see T-Mobile.com. Fastest based on median, overall combined 5G speeds according to analysis by Ookla® of Speedtest Intelligence® data 5G download speeds for Q4 2021. Ookla trademarks used under license and reprinted with permission. T-Mobile has America's largest 5G network. Capable device required. Some uses may require certain plan or feature; see T-Mobile.com. Smartphone Mobile HotSpot (SMHS) - also referred to as Wi-Fi Sharing or tethering - lets you securely share your device's Internet connection with up to 10 Wi-Fi-enabled devices on T-Mobile's high-speed nationwide network. If you want a plan with SMHS - check our Magenta or Magenta MAX plans. Use SMHS You'll need the following to use SMHS on your device Turn on and start using On your SMHS device, turn on Personal Hotspot or Wi-Fi Sharing (SMHS). Steps for turning SMHS on vary by device. Select your device and look in the Connections & Network drawer for device-specific steps. On the device you want to share data with, connect to the mobile hotspot network you just turned on. If you don't want to use Wi-Fi, you can use a USB cable to connect to other devices (additional software and setup may be required on your device -- you can check the Devices page for steps). Check SMHS amount & usage Shows you how much SMHS is included with your plan. This appears with your data & add-ons. Helps you view how much SMHS you've used. Troubleshooting Cost and eligibility SMHS is included with Magenta, ONE Plan, and Simple Choice plans. The price varies depending on the data allotment of your plan, such as 5 GB with our Magenta or Magenta MAX plan with 40 GB. You can add more high-speed data if you need to. Use the T-Mobile app or log into T-Mobile.com to view available options. Learn how to Add or remove services. A data feature is required on your line for SMHS to function. What's Smartphone Mobile HotSpot (SMHS)? SMHS lets you share your phone, tablet, or Wi-Fi HotSpot's high-speed data with other Wi-Fi enabled or tethered devices. You can share your internet connection with up to 10 devices. While connected to SMHS you can still make and receive calls and texts on your phone. SMHS on your device is different from location hotspots, like the Wi-Fi you connect to at a coffee shop or airport, and hotspot devices, like the devices sold by T-Mobile. Additional details For Simple Choice customers, once you reach your high-speed data allotment, your SMHS and on-device data speed is reduced to 2G speeds. Customers with a Simple Choice unlimited plan will have their SMHS speeds reduced after using 14 GB of mobile hotspot data. In either case, your data won't stop - you'll just experience slower speeds until the end of your billing cycle. On all T-Mobile plans, during congestion, the small fraction of customers using >50GB/mo. may notice reduced speeds until next bill cycle due to data prioritization. No annual contracts. Just more 5G bars in more places. T-Mobile has America's largest 5G network. Capable device required. Some uses may require certain plan or feature; see T-Mobile.com. Device plans may vary per data package. Select the plan that's perfect for you and don't spend a penny more. Make sure your device and plan info are correct and get connected now. Did you know T-Mobile offered connected devices? We sure do! Take a look at our customer favorites. During congestion, hotspot users may notice lower speeds than other customers, and further reduction for heavy data users (>50GB/mo. for most plans), due to data prioritization; see plan for details. High-speed data on our network up to monthly allowance, then max 2G speeds for Mobile Internet plans and max 3G speeds for Mobile HotSpot. We offer dedicated hotspot devices on data plans with up to 100GB of high-speed data so you can enjoy a more seamless portable Wi-Fi connection for your gaming consoles and laptops. Plus, since hotspot devices have powerful antennas and bigger batteries, you can keep your mobile phone available and charged. (Hotspot devices must be paired with a HotSpot data plan.) High-speed data on our network up to monthly allowance, then max 2G speeds. During congestion, Mobile Internet customers may notice speeds lower than other customers and heavy data users (>50GB for most plans) may notice further reduction, due to data prioritization. See full terms All our phone plans include hotspot data that lets you securely share your phone's internet connection with up to 10 other devices when you have a signal on T-Mobile's nationwide network. Plus, it's easy to add more data when you need it with plan add-ons or upgrades. During congestion, hotspot users may notice lower speeds than other customers due to prioritization; see plan for details. High-speed data on our network up to monthly allowance, then max 3G speeds. See full terms Get a hotspot device on a hotspot data plan—even if you're not a T-Mobile voice-line customer. T-Mobile's network keeps getting bigger and better—more towers, more engineers, more coverage—so you can connect to a hotspot in more places with faster speeds than ever before. During congestion, Project 10million customers may notice speeds lower than other customers due to data prioritization. Video typically streams at DVD quality (480p). See full terms Store pickup is available. With a Mobile Internet plan, get unlimited data for Wi-Fi HotSpot devices with several plan options that provide different amounts of high-speed data (depending on your need). Learn more about hotspots and discover the differences between personal mobile hotspots and portable hotspot devices. What's included with Mobile Internet for HotSpots Mobile Internet plans for your HotSpot device include: Unlimited data with several plan options that provide different amounts of high-speed data, depending on your needs. You choose the number of GB you need! Unlimited 3G Mobile HotSpot after you use your high-speed data up to your plan's limit. Unlimited texting (on compatible devices) Monthly regulatory fees and taxes on your service plan included in the price (see in-store materials for specifics in your state) Stretch your data farther with optimized, DVD-quality video streaming (480p) Texting & data (up to 256 kbps) abroad in 215+ countries & destinations (texting on compatible devices) Unlimited texting in Mexico & Canada & up to 5 GB of 4G LTE data Additional Plan Details Compatible with Wi-Fi HotSpots and a limited selection of other devices. If you have a tablet, check out Magenta Tablet plans which provided unlimited high-speed data! Unlimited HD Video passes can be added to enhance your video streaming. Maximum of 5 Mobile Internet lines per postpaid account, based on credit class approval. Not eligible for advantage volume discount, or certain other discounts and credits. This plan is not for extended international use; you must reside in the U.S. and primary usage must occur on our network. With Simple Global, standard speeds are approximately 256 kbps and usage may be taxed in some countries. How to get Mobile Internet for your HotSpot To see pricing and add a plan, check out our current HotSpot devices. If you already have a T-Mobile account, you can use the T-Mobile app, log in to your T-Mobile account online, or Contact us for assistance. If you need one or more lines for your phone(s), Magenta, Essentials, and Unlimited Talk & Text Only plans can be added alongside your taxes and fees included Mobile Internet plan. Mobile Internet plans: Postpaid only. Credit approval, deposit and \$25 SIM starter kit or, in stores & on customer service calls, assisted support charges may be required. U.S. roaming and on-network data allotments differ: includes 200 MB roaming. Partial megabytes rounded up. Unlimited high-speed data US only. In Canada/Mexico, up to 5GB high-speed data then unlimited at up to 128kbps. Not for extended international use; you must reside in the U.S. and primary usage must occur on our U.S. network. Service may be terminated or restricted for excessive roaming. Communications with premium-rate numbers not included. See T-Mobile.com/OpenInternet for data management details. On all T-Mobile plans, during congestion, the small fraction of customers using >50GB/month may notice reduced speeds until next bill cycle due to prioritization. On-device usage is prioritized over tethering usage, which may result in higher speeds for data used on device. Mexico & Canada: After lower of plan allotment or 5GB of 4G LTE, data speeds at up to 128kbps.
