Who says stacking skulls and bones canAAAAt be fun?Credit: Rijn via Wikimedia and licensed under CC BY-SA 4.0The six million dead Parisians in the Catacombs, from all corners of the capital and across
many centuries, together form the worldeAAAs largest necropolis eAAA their now anonymized skulls and bones methodically stacked, occasionally into whimsical patterns. One of the most famous of ParisAAA underground breweries, Dumesnil, stayed in operation until the late 1960s.In that decade, the network of corridors and galleries south of the
Seine, long since abandoned by miners, became the unofficial playground for the young people of Paris. More sustainable climate control of our living spaces would be a great help toward both targets. Their main targets are so-called tourists, who by their lack of knowledge expose themselves to risk of injuries or worse, and degrade their
surroundings, often leaving loads of litter in their wake. The understanding does not extend to the IGC. And Paris itself wants to be EuropeAAAAs greenest city by 2030. But the fight against climate change may turn the subterranean labyrinths from a liability into an asset eAAA and the City of Paris into an ally.The UNeAAAAs 2015 Climate Plan eAAA
concluded in Paris, by the way eAAA requires the world to reduce greenhouse gas emissions by 75 percent by 2050. Unlike in the 19th century, when weak cavities were shored up by purpose-built pillars, the policy now is to inject concrete to fill up endangered spaces eAAA thus progressively blocking off parts of the network. (eAAAHa!t! This is the
empire of Death.eAAA)That has not stopped the Catacombs, accessible via a side door to a classist building on the Avenue du Colonel Henri Rol-Tanguy, making just about every Top 20 list of things to see in Paris.An underground economyHowever, while the Catacombs certainly are the most famous part of the Network under Paris, and in non-
pandemic times attract thousands of tourists every day, constitute only 1,7 km (1 mile) of the total 300 km (185 miles) in the total tunnel. This procedure was also used to separate the catacombs to prevent "infiltration" of the site by cathphiles. In the list he disappeared, Paris stands out. Several caves were dug specially to establish breweries, and not
just because of the ambient temperature: go underground as the brewers around that is Poca, the dead of Paris were getting on the way to alive.
